Education

Heritage School Jul. 2022-Jan 2027

International General Certificate of Secondary Education (IGCSE), Edexcel, Pearson, UK
Subjects: Bangla, Biology, Chemistry, English Language B, Further Pure Math., Human Biology, Math. A, Math. B, Physics

International Advanced Level (IAL), Edexcel, Pearson, UK
Subjects: Biology, Chemistry, Mathematics, Physics

Preprints, Publications & Presentations

[1] **R. A. Morshed**, M. A. Rahman, M. R. Islam, M. N. Hasan, M. S. Ullah, I. Jahan, M. Parvez, N. Comonichi, M. Aslam (2025). Epidemiology, genotypic diversity and age-specific risk pattern of circulating human papillomavirus in Dhaka City, Bangladesh: a five-year study (2020-2024). *International Journal of Research in Medical Sciences, 13(7), 2781–2787.*[Link] (Publication)

[2] **R. A. Morshed** et al. (2025). Epidemiology, genotypic diversity and age-specific risk pattern of circulating human papillomavirus in Dhaka City, Bangladesh: a five-year study (2020-2024). Porster Presentation. EUROGIN 2026, Vienna, Austria (Conference Presentation)

Research & Work Experience

Research Assistant Dhaka, Bangladesh
Human Genetics Research and Training Centre, *Jan. 2023 – May. 2025*

- Conducted qPCR-based detection and genotyping of high-risk HPV from cervical swab samples
- Analyzed and visualized HPV prevalence, genotype distribution, age-wise risk, and seasonal trends using Python
- Developed publication-quality figures to support epidemiological figures from a 5-year dataset (n = 2,049).

Teaching Assistant & Grader, IGCSE Further Pure Mathematics Narayanganj, Bangladesh
Heritage School *Jan. 2025 – Present*

- Assisted instructor in-class by guiding mathematical problems and providing real-time support on course material.
- Held weekly office hours to provide in-depth guidance on working through challenging problems step by step.
- Graded homework and exams by following comprehensive rubrics, offering constructive written feedback.

Professional Development

Introduction to NGS-DNA (Illumina, Singapore) Online *Jan. 2026 - Jan. 2026*
Hands-on conceptual understanding of NGS workflows, including sample preparation, library construction, cluster generation, and sequencing

Virtual Training Program on Genetic Counseling *Feb. 2025 - Feb. 2025*
Understanding of complex genetic concepts and ability to communicate these ideas clearly and empathetically.

Hands-on Training on Clinical & Molecular Cytogenetics (Karyotyping) *Feb. 2025 - Mar. 2025*
Understanding of karyotyping techniques, including sample preparation, chromosome staining, and microscopic analysis for chromosomal abnormalities.

Hands-on Training on Real-Time PCR
Understanding of qPCR principles and interpreting data with accuracy.

Hands-on Training on Sanger Sequencing *Dec. 2024 - Dec. 2024*
Core aspects of Sanger sequencing, including DNA extraction, amplification, and sequencing analysis.

Workshop on Critical Thinking (Oxford, UK) Onsite *Oct. 2022 - Oct. 2022*
Title: Can Machines Think?; Conducted by: Dr. Stephen Law.

Awards & Honors

Last updated: Jan. 26, 2026

9th Linguistic Olympiad Bangladesh 2022 (National Round Winner).
3rd International Philosophy Olympiad 2025, Bari, Italy (participated).
Bangladesh Philosophy Olympiad 2023 (National Round Winner)
Edexcel International High Achievers' Award 2025
The Daily Star Award 2025

Technical Skills

Python (University of Michigan-Coursera), **LaTeX**.

Option 3: More Detailed (Good for Research/Lab CVs)
Illumina Online Course: Introduction to Next-Generation Sequencing: DNA Must use link
Duration: 10.5 hours | Completed: [Month Year]
Covered: NGS workflow, sequencing principles, DNA library preparation, applications in Whole Genome Sequencing

Option 4 (Skills-Focused Version)

Must use link

Programming for Everybody (Getting Started with Python) — University of Michigan
Online Training
Topics covered: Python fundamentals, loops, functions, basic data structures

Attending congress, austria Must use link
